## Medication

July 21, 2022

Dear Parents,

Under the direction of Christ Lutheran School's Safety Committee, a Disaster/Earthquake Plan has been established for the welfare and safety of all our students.

As part of this plan, we are very much concerned about those students in our care that require daily medication for such conditions as:

- 1) Diabetes
- 2) Seizures
- 3) Asthma
- 4) Heart Problems

We are therefore suggesting that you send to the office the following:

1. A consent form signed by you and your child's physician [enclosed]
2. A three [3] day supply of medication in a properly labeled pharmacy container

At the end of the school term, the medication will be returned to you. No medication will be carried over from one school year to another.

Your understanding and cooperation in this matter is greatly appreciated.

In Partnership,

Charlene Soon, Principal
